

Childlife Newsletter – Starting to Rebuild

Just two weeks after the catastrophic storm that devastated Childlife on the 24th of May 2005, the organisation is starting to get back on its feet. This was made possible thanks to the generous support of friends of Childlife, the Maesai community and the local government, who have provided much needed building supplies and assistance.

Secondhand tiles from the local community.

Stone that was bought with donated money.

Tiles donated from local council

Cement bought from the local shop, who have allowed us to pay later.

Due to the fact that the sleeping quarters have become unsafe and are beyond repair, the children have first began preparing the old school as a temporary sleeping shelter, which will be safe and secure if another storm hits Maesai.

The children mixing sand and cement.

The staff and the older children of Childlife working together to lay the new floor.

There's a long way to go and Childlife still needs a lot of help. We need to build new permanent houses for the 57 boys and 38 girls, repair the kitchen, the toilets and shower block and of course even before all this begins, we need to keep feeding the children.

Thank you everyone to has come to our aid in this difficult time and to everyone who has helped us in the past. Without your support, Childlife would not be here today.

Guljohn Jeamram - *Childlife Director.*

8th June 2005.
